

Families Acting for Community Traffic Safety (FACTS) gives members the information and incentives they need to build an understanding of what it means to drive safely, both today and in the future. Through their projects, members work to educate adults and peers about traffic safety and support enforcement of local rules and regulations. FCCLA members are given the tools to help families promote basic safety attitudes that can last a lifetime.

Community Leader Peer Education Team Suggested Projects:

Seatbelt Checks

Your FCCLA chapter can put on a seatbelt check to raise awareness about seatbelt safety!

Driving Obstacle Course

Find a parking lot and set up an obstacle course that can help your peers learn to drive safer and more cautiously!

Make a Safe Driving Video

Get a few of your friends, or your whole chapter to make a video that relates to FACTS, make it fun and creative while also teaching and showing your community and peers how to drive safely!

Contact the State Patrol To Speak

Get in touch with the state patrol or even your local police department to have a presentation at your school. The EMT is also a good resource to have speaking in front of the school.

Crash Simulator

A crash simulator is a great way to bring awareness to safe driving. A resource you can use to get a crash simulator is your local or state police departments.

Speed Limit Tracker

Contact the local DMV or your city to get a speed limit tracker to show the importance.

MADD and Teens in the Driver's Seat are two excellent resources for FACTS projects. These organizations are ready to assist chapters with any project ideas or needs. Contact:

Jeanne Bietz Jeanne.Bietz@nebraska.gov – Teens in the Driver's Seat

Sara Bockelman Sara.Bockelman@madd.org – Power of Youth Training with MADD

You can use these projects and more to apply for the Community Leader Team Capture the Action or Outreach Project awards given out at the Peer Education Conference in February.
